6. UJUTLET [] raised the UJUTLET operation in connection to KUNZE that UJUTLET had had an OVI come channel with the RIA and that it was possible that the OVI came in UJUTLET's case dated back to the late stages of the UJUTLET operation. [] said it would be interesting to determine just when UJUTLET had his last OVI, which presumably was a short time before he committed suicide. KUNZE said she believed UJUTLET had committed suicide in early August 1939. She then talked at some length about UJUTLET's background and

the fact that she was convinced that his suicide was simply because he was depressed due to the death of his wife, the fact that he did not really believe the German authorities would or could protect him against war crime charges, plus the fact that he had a very guilty conscience about some of his wartime activities. KUNZE said she would provide the exact date of UJUTLET's suicide at the next meeting. In addition, KUNZE mentioned that UPHILL (UJEROWSKY) had officially taken over the UJUTLET operation from the Bavarian LfV sometime in 1936, (contrary to what FLEMING earlier had stated on this subject). KUNZE also mentioned that in the "Syrial Material" that UPHILL had authorized UJUTLET to pass to the RIA, there had been information concerning the background of Wilhelm HARSTER and the suggestion that he was recruitable and a good agent candidate for the Soviets. KUNZE noted that UJUTLET had, of course, passed roughly similar information concerning UJEROWSKY, and it was on the basis of this that the RIA contact with UJEROWSKY had been taken up after the suicide of UJUTLET.

7. UJUTLET Vienna Operation - [] asked previously what the planning was for UJUTLET's meeting with the RIA. FLEMING said he did not know precisely and had had only a brief oral report from UJUTLET. Apparently UJUTLET is prepared to pass information concerning his activities for UPHILL and also, if requested by the RIA, will be prepared to recommend a candidate in UPHILL Headquarters for RIA recruitment. [] said he thought this very strange as early in the operation, especially since there seemed to be no chance that the RIA would even ask such a question if they had an idea the operation was really on the level. FLEMING said in any event UJUTLET was busy discussing various candidates for UJUTLET to mention to the RIA. FLEMING said in view of how strange everything else was, he did not consider it impossible that UJUTLET would end up recommending himself. FLEMING said he agreed that this seemed rather crazy, but said that the basic plan for having UJUTLET prepared to nominate a penetration candidate for UPHILL Headquarters was formulated even before the RIA meetings moreover, he said in UPHILL's OR Section ever had told UJUTLET that this was a pretty idea and that the RIA presumably would be interested in a thorough and extensive debriefing and assessment of UJEROWSKY before they got around to asking him about additional agent candidates.

1. Follow up - delivered a large batch of recent GALTREK coverage concerning the Flint operation concerning the upcoming KATIE/ITS meeting in Vienna. The interviews were extended to plots and additional relevant information concerning the Vienna meeting.

1. HEINZ FLEMMING, alias aka - The content of the above-cited and referred, if was apparent, that even the Worms alone, a fairly extensive system collected concerning the Worms meeting. Not only that, during the two most important days, namely, when Worms and Worms will be staying in Worms. Bolz Worms noted that without this information surveillance would really be out of the question. FLEMMING said he expected to discuss the problem with STERN and thought there was some chance STERN could get Worms to make advance hotel reservations using an appropriate cover story. There was also discussion of the apparent significant fact that Worms was intended not to get a hotel reservation in advance, plus the fact that he wanted to be "independent" while in Worms, all of which seemed to enhance the possibility that he was planning to keep a meeting with the

1. UJDROWSY/UJDRUM/UJDRUG Meeting With RIS - FLEMING provided considerable information on various changes on the planning for the Vienna ops trip. FLEMING also provided photos and physical descriptions of the two UPHILL surveillants for the Vienna op, Fr. GRIFF and true name Rudolf KRAUSS (no UJVENTURE record). For details see MUNI 7883 and MUNI 7892.

2. UJDROWSY/UJDRUM - Vienna Trip - Much of the meeting was devoted to discussion of the UJDROWSY planning for contact, etc., in Vienna. () advised FLEMING that () had gone to Vienna the previous evening to be on the spot and that we were going to do our best to provide surveillance coverage. () also noted that we still had someone in Oberaudorf to cover the departure of UJDROWSY and UJDRUM the morning of 8 September. () also advised FLEMING that we would have a live monitor on the CALLIKAK coverage in the event UJDROWSY called his wife and named his hotel. For detailed commentary sent Opim to Vienna see MUNI 7379.

3. UJDRUM/What to Report to RIS - () asked if UJDRUG planned to tell his RIS contact all about the BANANE operation, which seemed necessary (as a matter of form) since WICKOWITZ is regarded as MIS controlled and because UJDRUG no doubt has been identified as the UPHILL C/O. FLEMING said that as strange as it might seem, UJDRUG was not going to mention Fall BANANE, since his cover story vis-a-vis the RIS is that he does various research jobs for UPHILL, but is not a case officer and handles no sources. FLEMING agreed this was pretty silly, but said it was too late to try to make the UJDRUG/UJVENTURE operation make sense since it never had made sense from its inception.

4. UJDROWSY/UJDRUM - Vienna Trip - Much of the meeting was devoted to a re-haul of this operation and the new changes.

5. UJDROWSY/UJDRUM - Vienna Trip - Much of the meeting was devoted to a re-haul of this operation and the new changes.
